

SUSTAINABILITY COURSE DEVELOPMENT FELLOWSHIPS

PAST WINNERS

Office of the Vice Provost for Faculty and Academic Affairs

The Sustainability Course Development Fellowships were established in the fall of 2008 by the Office of the Vice Provost for Faculty and Academic Affairs. This award program supports faculty members' and graduate students' efforts to enhance teaching of topics related to sustainability and environmental literacy at the IU Bloomington campus. This represents an instructional component of a broad-based initiative developed by the Indiana University Task Force on Campus Sustainability. The first awards were bestowed for the academic year 2008-2009. See the following link for additional details on the initiative: http://www.indiana.edu/~sustain/transitions%20lab/faculty_engagement/sustainability-course-development-fellowships.php

Also for the 2008-2009 academic year only, the Sustainability and Environmental Literacy Leadership Award was offered. The Sustainability and Environmental Literacy Leadership Award was given to a team proposing a new teaching and learning initiative that promises to have a sustained impact upon sustainability research and education and that could serve as a model for further development of academic programs with sustainability-related themes on the IUB campus.
